## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Allan Hancock Joint Community College District  
Santa Maria, California

### **Report on Audit of Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of Allan Hancock Joint Community College District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the District as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Allan Hancock Joint Community College District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter Regarding Change in Accounting Principle***

During the year ended June 30, 2022, the District adopted the provisions of Governmental Accounting Standards Board Statement (GASB) No. 87, *Leases*. Our opinion was not modified with respect to this matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information section, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information listed in the Table of Contents, including the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information, is fairly stated in all material respects in relation to the basic financial statements as a whole.

### *Other Information*

Management is responsible for the other information included in the annual report. The other information comprises the Management's Discussion and Analysis section and unaudited supplementary information section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2022**

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

This section of Allan Hancock Community College District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2022. Please read it in conjunction with the District's financial statements, which immediately follow this section.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

**The Financial Statements**

The District's financial statements are presented in accordance with Governmental Accounting Standards Board (GASB) Statements No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* (GASB Statement No. 34) and No. 35, *Basic Financial Statements - and Management Discussion and Analysis - for Public College and Universities* (GASB Statement No. 35). These statements allow for the presentation of financial activity and results of operations which focuses on the District as a whole. The government-wide financial statements present the overall results of operations whereby all of the District's activities are consolidated into one total versus the traditional presentation by fund type.

The financial statements presented herein include all of the activities of the District and its component unit. Separate financial statements for the blended component unit, Allan Hancock College Auxiliary Programs Corporation (the Corporation), can be obtained from the District's business office at 800 South College Drive, Santa Maria, CA 93454-6399.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District, as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by GASB Statements No. 34 and No. 35 in regard to interfund activity, payables, and receivables.

The District's audited financial statements include:

- 1) A Management's Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations.
  
- 2) Financial statements prepared using full accrual accounting for all the District's activities that reflect the government-wide financial picture as opposed to individual fund financial statements.

**REPORTING THE DISTRICT AS A WHOLE**

**The Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows**

The *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Net Position* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the District's net position and changes in it. Net position is the difference between assets and deferred outflows and liabilities and deferred inflows, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are indicators of whether its financial health is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's operating results. Since the Board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the District facilities will likely be important components in this evaluation.

The *Statement of Cash Flows* provides an analysis of the sources and uses of all cash within the operations of the District.

**FINANCIAL HIGHLIGHTS**

**Net Position**

The District's net position was \$79,822,014 for the fiscal year ended June 30, 2022. Of this amount, (\$22,760,518) was an unrestricted deficit. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the Board's ability to use that net position for day-to-day operations. Our analysis below focuses on net position and change in net position of the District's business-type activities.

	<b>2022</b>	<b>2021</b>	<b>Change</b>

<b>Total Net Position</b>	<b>\$ 79,822,014</b>	<b>\$ 52,843,865</b>	<b>\$ 26,978,149</b>

This schedule has been prepared from the District's *Statement of Net Position* (page 12), which is presented on the accrual basis of accounting whereby capital assets are capitalized and depreciated and all liabilities of the District are recognized.

Cash and short-term investments consist primarily of funds held in the County Treasury. The changes in cash position is explained in the *Statement of Cash Flows* (pages 14-15).

Much of the unrestricted deficit net position has been designated by the Board or by contracts for such purposes as Federal and State grants, outstanding commitments on contracts, debt service, and general reserves for the ongoing financial health of the District.

**FINANCIAL HIGHLIGHTS, continued**

**Change in Net Position, continued**

The operating revenues for the District are specifically defined as revenues from users of the College's facilities and programs. Excluded from operating revenues are the components of the primary source of District funding; the State apportionment process which includes the State general apportionment and local property taxes. As these resources of revenues are from the general population of the State of California, and not from the direct users of the educational services, they are considered to be nonoperating. As a result, the operating loss of \$69,382,138 is balanced by other funding sources. Total District revenues exceeded total expenses by \$27,101,037 for the year ended June 30, 2022.

Grants and contract revenues relate to student financial aid, as well as specific Federal and State grants received for programs serving students of the District. These grants and program revenues are restricted as to the allowable expenses related to the programs.

Interest income is primarily the result of cash held at the County Treasury. Interest expense relates to interest payments on the general obligation bonds as described in Note 12 of the financial statements.

**Cash Flows**

The *Statement of Cash Flows* provides information about cash receipts and payments during the year. This statement also assists users in assessing the District's ability to meet its obligations as they come due and its need for external financing.

	<b>2022</b>	<b>2021</b>	<b>Change</b>
Cash Provided by (Used in)			
Operating activities	\$ (58,413,738)	\$ (70,409,102)	\$ 11,995,364

Capital financing activities	(26,589,695)	(17,584,540)	(9,005,155)
Investing activities	194,953	166,580	28,373
Net Increase (Decrease) in Cash	16,776,903	(10,388,429)	27,165,332
Cash, Beginning of Year	85,965,619	96,354,048	(10,388,429)
Cash, End of Year	<u>\$ 102,742,522</u>	<u>\$ 85,965,619</u>	<u>\$ 16,776,903</u>

The primary operating receipts are student tuition and fees. The primary operating expense of the District is the payment of salaries and benefits to instructional and classified support staff, as well as District administrators.

***SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2021-2022 ARE NOTED BELOW:***

Through various governmental reports and financial documents, the college ensures that budgets and resource allocation have a high degree of credibility and accuracy. The college presents budgets to the board of trustees for adoption three times each fiscal year. The tentative budget is presented in June and is based on collaborative work between departments and budget managers. Decisions are made utilizing program reviews, annual updates, and shared governance groups such as Budget Council, Resource Alignment Committee, and Facilities Council. The adopted budget, presented in September, encompasses final state allocations and awards, and is balanced with unrestricted general fund reserves that exceed the minimum state recommended levels. Finally, the revised adopted budget is presented in the Spring and includes any updates for new or revised state and federal awards and allocations and collective bargaining agreements.

The college routinely monitors financial activity using various reports. Monthly, year-to-date financial statements for all funds of the college are presented and reviewed by the board of trustees. External reporting is comprised of quarterly and annual financial reporting to the Chancellor's Office and the ACCJC Annual Fiscal Report. Other internal monitoring of budgets and resource allocations are done by the Measure I Citizen Bond Oversight Committee and the Auxiliary Programs Board.

The college has performed an internal assessment of its fiscal health using the State's Fiscal Crisis and Management Assistance Team's (FCMAT) Community College Fiscal Health Risk Analysis. FCMAT developed the Fiscal Health Risk Analysis (FHRA) as a tool to help evaluate a community college district's (CCD) fiscal health and risk of insolvency in the current and two subsequent fiscal years.

Each section and specific question on the FHRA is based on FCMAT's work since its inception; they are the common indicators of risk or potential insolvency for CCDs that have neared insolvency and needed assistance from outside agencies.

There are 127 questions in the FHRA spread across 18 categories. The greater the number of "no" answers to the questions in the analysis, the higher the score, which points to a greater potential risk of insolvency or fiscal issues for the CCD. Not all sections in the analysis and not all questions within each section carry equal weight; some areas carry higher risk and thus count more heavily toward or against a CCD's fiscal stability percentage. A score of 40% or more is considered high risk; a score of 25%-39% is considered moderate risk; 24% or lower is considered low risk. The college's score is 8.5%.

**SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2021-2022 ARE NOTED BELOW, continued:**

In December of 21, the college reallocated \$4,542,528 from the country treasury to an irrevocable trust as a partial offset against future CalSTRS and CalPERS employer contribution rate increases. Assets contributed to the irrevocable Trust, based on Section 115 trust rules and an IRS Private Letter Ruling from June 2015 specific to the Trust may only be withdrawn to pay pension costs related to the retirement systems. Placing these funds in an external portfolio may result in returns that exceed traditional country treasurer rates. Other advantages of this type of trust include the following:

- The district can reimburse itself for STRS/PERS costs or transfer funds to STRS/PERS to mitigate contribution increases.
- Funds are protected from diversion in irrevocable trust which may curtail stakeholder pressure to use funds in other ways.
- Assets can be used as a source of funds for pension-related costs when District revenues are constrained or a difficult budgetary year.

Budget Council has been grappling with the Self-Insured Dental Fund and what to do with its continuously growing fund balance. As demonstrated in the table below, the fund balance has grown from \$1,392,472 in fiscal year 2016-2017 to \$1,820,916 in fiscal year 2020-21. Premiums have averaged around \$750,000 per year for the last five years.

Because the fund had more than a 200% reserve, there was a strong desire on the part of Budget Council members to put the unrestricted general fund dollars that have been deposited into the fund (i.e., eighty-five cents of every dollar) to work. A recommendation that both the Budget Council and Facilities Council endorsed was to move \$1 million out of the fund to establish a furniture and equipment reserve. The reserve is to be used for the purchase and replacement of furniture, fixtures, and equipment (FF&E), including ergonomic equipment.

For items to be eligible to be funded through the reserve, they must be specified in a program review or annual update or be identified in a project contained in the districts' five-year construction plan (ergonomic equipment would be an exception to this rule).

Budget Council monitors the fund balance of the Self-Insured Dental Fund. If the fund balance exceeds twelve months' worth of premiums, the difference is transferred to the FF&E reserve.

***ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES 2022-2023***

Fund budgets represent information available to the District at the time of budget adoption. Revisions will occur as the year progresses, primarily due to final program funding approvals, budget transfers, and reallocation of restricted reserves.

Bond Measure I funds are projected to partially complete the Fine Arts Complex project and other projects on campus, including the Student Health Center complex and the PCPA Stagecraft building. It is also anticipated that the District will undertake several large-scale deferred maintenance projects, such as the replacement of roofs on Buildings 1, 2, 3 & 4 at the Lompoc Valley Center, and the retrofit of the fire alarm system both at Lompoc Valley Center and on the Santa Maria campus, due to the large influx of scheduled maintenance dollars contained in the State's fiscal year 2022-23 budget.

Management closely monitors all economic factors, including cash, in an effort to control the ultimate impact on the District's financial health.

***CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT***

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. **NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

---

**NOTE 1 – ORGANIZATION**

Allan Hancock Joint Community College District (the District) is a comprehensive, public, two-year institution offering higher education in the County of Santa Barbara (the County), in the State of California (the State). The District operates under a locally elected five-member Board of Trustees form of government, which establishes the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund, special revenue funds, and capital project funds, as well as all other funds, but these budgets are managed at the department level. The District consists of one community college located in Santa Maria, California, with multiple satellite centers located in Lompoc, Solvang, and Vandenberg Space Force Base, California. While the District is a political subdivision of the State of California, it is legally separate and is independent of other State and local governments, and it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61. The District is classified as a Public Educational Institution under Internal Revenue Code Section 115 and is, therefore, exempt from Federal taxes.

**Financial Reporting Entity**

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Trustees.

The District has adopted GASB Statement No. 61, Determining Whether Certain Organizations are Component Units. This statement amends GASB Statement No. 14, The Financial Reporting Entity, to provide additional guidance to determine whether certain organizations, for which the District is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the District. The three components used to determine the presentation are: providing a "direct benefit", the "environment and ability to access/influence reporting", and the "significance" criterion.

**ALLAN HANCOCK JOINT COMMUNITY COLLEGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

---

**NOTE 1 – ORGANIZATION, continued**

The following entity met the criterion for inclusion as a "blended" component unit and is consolidated within the financial statements of the District:

**The Allan Hancock College Programs Auxiliary Corporation**

The Allan Hancock College Programs Auxiliary Corporation (the Corporation) is a legally separate organization and a component unit of the District. The Corporation is an auxiliary operation of the District and includes the Pacific Conservatory of Performing Arts (PCPA) and Associated Students Trust Fund. The purpose of the Corporation is to provide benefits to the educational programs and services for the District. The District supplies all staff and performs all administrative functions for the Corporation. Such common governance and administrative structure are the prime criteria used to evaluate the Corporation for inclusion in the accompanying financial statements as a blended component unit. Accordingly, the activities of the Corporation are accounted for in the District's business-type activities. Separate financial statements for the Corporation can be obtained from the District's business office at 800 South College Drive, Santa Maria, CA 93454-6399. Condensed component unit information for the Corporation (the District's blended component unit) for the year ended June 30, 2022, is as follows:

Based upon the application of the criteria listed above, the following potential component units have been excluded from the District's reporting entity:

**Allan Hancock College Viticulture and Enology Foundation**

The Allan Hancock College Viticulture and Enology Foundation (the Viticulture Foundation) is a legally separate, not-for-profit corporation. The purpose of the Viticulture Foundation is to provide benefits to the educational programs and services for the District. The Viticulture Foundation is not included as a component unit because the economic resources received and held by the Viticulture Foundation are not significant to the District. Separate financial statements for the Viticulture Foundation can be obtained from the District's business office at 800 South College Drive, Santa Maria, CA 93454-6399.

**Allan Hancock College Foundation**

The Allan Hancock College Foundation (the Foundation) is a legally separate, not-for-profit corporation. The Foundation provides financial support for various college-related programs including student scholarships and awards, general department and program support, equipment purchases and capital improvements, and faculty research and teaching activities. The Board of the Foundation consists of community members, alumni, and other supporters of the Foundation. The Foundation is not included as a component unit because the economic resources received and held by the Foundation are not significant to the District and because the District does not control the timing of amount of receipts from the Foundation. Separate financial statements for the Foundation can be obtained from the Foundation's business office at 800 South College Drive, Santa Maria, CA 93454-6399. The District's share of year-end assets, liabilities, or fund equity has not been calculated.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB Statements No. 34 and No. 35 as amended by GASB Statements No. 37, No. 38, and No. 39. This presentation provides a comprehensive government-wide perspective of the District's assets, liabilities, activities, and cash flows and replaces the fund group perspective previously required. Fiduciary activities, with the exception of the Student Financial Aid Fund, are excluded from the basic financial statements. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. The significant accounting policies followed by the District in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB. Additionally, the District's policies comply with the California Community Colleges Chancellor's Office *Budget and Accounting Manual*. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All material intra-agency and intra-fund transactions have been eliminated.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are classified as operating revenues. These transactions are recorded on the accrual basis when the exchange takes place. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, operating revenues consist primarily of student fees, noncapital grants and contracts.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, Federal and State financial aid grants, entitlements, and donations. Property tax revenue is recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the Community Colleges Chancellor's Office and includes reporting of full-time equivalent students (FTES) attendance. The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State financial aid grants are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements may include time and/or purpose requirements.

Operating expenses are costs incurred to provide instructional services including support costs, auxiliary services, and depreciation of capital assets. All other expenses not meeting this definition are reported as nonoperating. Expenses are recorded on the accrual basis as they are incurred, when goods are received, or services are rendered.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The financial statements are presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*, as amended by GASB Statements No. 37, No. 38, No. 39, and No. 61. The business-type activities model followed by the District requires the following components of the District's financial statements:

- Management's Discussion and Analysis
- Basic Financial Statements for the District including:
  - Statement of Net Position – Primary Government
  - Statement of Revenues, Expenses, and Changes in Net Position – Primary Government
  - Statement of Cash Flows – Primary Government
  - Financial Statements for the Fiduciary Funds Including:
    - Statement of Net Position – Fiduciary Funds
    - Statement of Changes in Fiduciary Net Position – Fiduciary Funds
- Notes to Financial Statements.

**Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term unrestricted investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include unrestricted cash with county treasury balances for purposes of the Statement of Cash Flows. Restricted cash and cash equivalents represent balances restricted by external sources such as grants and contracts or specifically restricted for the repayment of capital debt.

**Investments**

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments held at June 30, 2022, are stated at fair value. Fair value is estimated based on quoted market prices at year-end. Short-term investments have an original maturity date greater than three months, but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

**Accounts Receivable**

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of California. The District does not record an allowance for uncollectible accounts because collectability of the receivables from such sources is probable. When receivables are determined to be uncollectible, a direct write-off is recorded.

**ALLAN HANCOCK JOINT COMMUNITY COLLEGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2022**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Prepaid Expenses**

Prepaid expenses represent payments made to vendors and others for services that will benefit periods beyond June 30.

**Capital Assets and Depreciation**

Capital assets are stated at cost at the date of acquisition or fair value at the date of gift. The District's capitalization policy includes all items with a unit cost of \$5,000 (for equipment) and an estimated useful life of greater than one year. Buildings, renovations to buildings, infrastructure, and land improvements that cost more than \$150,000, significantly increase the value, or extend the useful life of the structure, are capitalized. Routine repair and maintenance costs are charged to operating expenses in the year in which the expense is incurred. Depreciation of equipment and vehicles, facilities, and other physical properties is provided using the straight-line method over the estimated useful lives of the respective assets, or in the case of assets acquired under capital leases, the shorter of the lease term or useful life. Costs for construction in progress are capitalized when incurred.

The following estimated useful lives are used to compute depreciation:

Land improvements	20 - 50 years
Building and improvements	20 - 50 years
Equipment	3 - 10 years
Vehicles	3 - 10 years

**Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

**Debt Issuance Costs, Premiums, and Discounts**

Debt premiums and discounts, as well as issuance costs related to prepaid insurance costs, are amortized over the life of the bonds using the straight-line method.

**Deferred Charges on Refunding**

Deferred charges on refunding is amortized using the straight-line method over the remaining life of the new or the remaining life of the old debt, whichever is shorter.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for deferred charges on refunding of debt, for pension related items, and for OPEB related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items and for OPEB related items.

**Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value. Payments for the aggregate net pension obligation are made by the fund for which the employee worked.

**Compensated Absences**

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. The current portion of unpaid compensated absences is recognized upon the occurrence of relevant events. The District also participates in "load-banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period. At year end, there was no outstanding liabilities for load banking. Sick leave is accumulated without limit for each employee based upon negotiated contracts. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Retirement credit for unused sick leave is applicable to all academic employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full time.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Unearned Revenue**

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized. Unearned revenue includes (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met.

**Noncurrent Liabilities**

Noncurrent liabilities include bonds payable, compensated absences, capital leases, and the aggregate net pension obligation with maturities greater than one year.

**Net Position**

GASB Statements No. 34 and No. 35 report equity as "Net Position" and represent the difference between assets and liabilities. The net position is classified according to imposed restrictions or availability of assets for satisfaction of District obligations according to the following net asset categories:

**Net Investment in Capital Assets:** Consists of capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets. To the extent debt has been incurred, but not yet expended for capital assets, such accounts are not included as a component invested in capital assets.

**Restricted:** Net position is reported as restricted when there are limitations imposed on their use, either through enabling legislation adopted by the District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

**Unrestricted:** Net position that is not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed. The government-wide financial statements report \$47,338,558 of restricted net position.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Operating Revenues and Expenses**

**Classification of Revenues** - The District has classified its revenues as either operating or nonoperating. Certain significant revenue streams relied upon for operation are classified as nonoperating as defined by GASB Statements No. 34 and No. 35. Classifications are as follows:

**Operating revenues** - Operating revenues include activities that have the characteristics of exchange transactions such as student tuition and fees, net of scholarship discounts and allowances, Federal, State, and local grants and contracts, and sales and services of auxiliary enterprises.

**Nonoperating revenues** - Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as State apportionments, property taxes, investment income, gifts and contributions, and other revenue sources defined in GASB Statements No. 34 and No. 35.

**Classification of Expenses** - Nearly all of the District's expenses are from exchange transactions and are classified as either operating or nonoperating according to the following criteria:

**Operating expenses** - Operating expenses are necessary costs to provide the services of the District and include employee salaries and benefits, supplies, operating expenses, and student financial aid.

**Nonoperating expenses** - Nonoperating expenses include interest expense and other expenses not directly related to the services of the District.

**State Apportionments**

Certain current year apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year. When known and measurable, these recalculations and corrections are accrued in the year in which the FTES are generated.

**Property Taxes**

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Barbara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

The voters of the District passed a General Obligation Bond in 2006 for the acquisition, construction, and remodeling of certain District property. As a result of the passage of the Bond, property taxes are assessed on the property within the District specifically for the repayment of the debt incurred. The taxes are assessed, billed, and collected as noted above and remitted to the District when collected.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Scholarships, Discounts, and Allowances**

Student tuition and fee revenue is reported net of scholarships, discounts, and allowances. Fee waivers approved by the Board of Governors are included within the scholarship, discounts, and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf.

**Federal Financial Assistance Programs**

The District participates in federally funded Pell Grants, Supplemental Educational Opportunity Grants (SEOG) Grants, and Federal Work-Study programs, as well as other programs funded by the Federal government. Financial aid to students is either reported as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to students in the form of reduced tuition. These programs are audited in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

**Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Interfund Activity**

Interfund transfers and interfund receivables and payables are eliminated during the consolidation process in the Primary Government and Fiduciary Funds' financial statements, respectively.

**New Accounting Pronouncements**

*GASB Statement No. 87* – In June 2017, GASB issued Statement No. 87, Leases. This standard’s primary objective is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The statement is effective for periods beginning after June 15, 2022. The District has implemented GASB Statement No. 87 for the year ending June 30, 2022. The District has implemented GASB Statement No. 87 for the year ended June 30, 2022.

*GASB Statement No. 88* – In April 2018, GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This standard’s primary objective is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The statement is effective for periods beginning after June 15, 2020. The District has implemented GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements for the year ended June 30, 2022.

*GASB Statement No. 96* – Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription based information technology arrangements (SBITAs) for government end users (governments). Under this Statement, a government generally should recognize a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability. A government should recognize the subscription liability at the commencement of the subscription term, which is when the subscription asset is placed into service. The statement is effective for fiscal year 2022- 23

Early implementation is encouraged. The District is in the process of determining the effect on the financial reporting.

**NOTE 3 – DEPOSITS AND INVESTMENTS**

**Policies and Practices**

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

**Investment in County Treasury**

In accordance with the *Budget and Accounting Manual*, the District maintains substantially all of its cash in the County Treasury as part of the common investment pool. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

**General Authorizations**

**NOTE 3 – DEPOSITS AND INVESTMENTS, continued**

**Authorized Under Debt Agreements**

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements rather than the general provisions of the California Government Code. These provisions allow for the acquisition of investment agreements with maturities of up to 30 years.

Deposits and investments as of June 30, 2022, consists of the following:

	Primary Government	Fiduciary Funds
Cash on hand and in banks	\$ 5,084,529	\$ 5,200,859
Cash in revolving	27,168	-
Cash in County Treasury	97,630,825	-
Investments	-	9,376,084
Total Deposits and Investments	<u>\$ 102,742,522</u>	<u>\$ 14,576,943</u>

**Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Santa Barbara County Investment Pool, mutual funds, and U.S. Treasury Bonds.

**Specific Identification**

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investments by maturity:

Investment Type	Book Value	Fair Value	Weighted Average Maturity in Days
Santa Barbara County Investment Pool	\$ 97,630,825	\$ 94,316,779	644
Mutual Funds	9,376,084	9,376,084	N/A

**Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in the Santa Barbara County Investment Pool, the Mutual Funds, and the U.S. Treasury Bonds are not required to be rated, nor have been rated as of June 30, 2022.

**Custodial Credit Risk – Deposits**

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2022, the District's bank balance of \$5,084,529 was fully insured or collateralized with securities, held by the pledging financial institutions trust department in the District's name.

**NOTE 4 – FAIR VALUE MEASUREMENTS**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 – Observable inputs, other than Level 1 prices, such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 – Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized – Investments in the Santa Barbara County Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share

The District's fair value measurements are as follows at June 30, 2022:

Investment Type	Fair Value	Level 1 Inputs	Level 3 Inputs	Uncategorized
Santa Barbara County Investment Pool	\$ 94,316,779	\$ -	\$ -	\$ 94,316,779
Mutual Funds	9,376,084	9,376,084	-	-
Total	\$ 103,692,863	\$ 9,376,084	\$ -	\$ 94,316,779

All assets have been valued using a market approach, with quoted market prices.

**NOTE 7 – LEASE RECEIVABLES AND ARRANGEMENTS**

The District’s lease receivable is measured at the present value of lease payments expected to be received during the lease term. Under the lease agreement, the District may receive variable lease payments that are dependent upon the lessee’s revenue. Any variable payments are recorded as an inflow of resources in the period the payment is received.

A deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

Future deferred inflows on noncancellable leases at June 30, 2022 are as follows:

Fiscal year	Principal	Interest	Total
2023	\$ 18,118	\$ 2,682	\$ 20,800
2024	18,856	1,944	20,800
2025	19,625	1,175	20,800
2026	20,424	376	20,800
Total	\$ 77,023	\$ 6,177	\$ 83,200

The District leases a building to external parties. In accordance with GASB 87, the District records lease receivables and deferred inflows of resources based on the present value of expected receipts over the term of the respective lease. The expected receipts are discounted using the District’s incremental borrowing rate. Any variable payments are excluded unless fixed in substance.

During the year ended June 30, 2022, the District recognized revenues related to these lease agreements totaling \$18,116. During the year ended June 30, 2022, the District does not have any lease revenue related to variable receipts that were not previously included in the measurement of the lease receivable.

The general terms of the lease agreements are as follows:

Lease Type	Number of Contracts	Average Rate	Lease Terms	Average Annual Rental Income
Buildings	1	4.00%	8/21/2021 - 6/30/2026	\$ 20,800

*Benefits Provided*

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

*Contributions*

The contribution requirements of Plan members and the District are established and may be amended by the District, the faculty union, the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements with the District and the groups. For fiscal year 2021-22, the District's OPEB was fully funded and no contributions were made.

**Net OPEB Liability (Asset) of the District**

The District's net OPEB liability (asset) of (\$2,054,603) was measured as of June 30, 2021, by an actuarial valuation as of June 30, 2020. The components of the net OPEB liability (asset) as of the June 30, 2021 measurement date were as follows:

Total OPEB liability	\$ 9,010,706
Plan fiduciary net position	<u>11,065,309</u>
District's net OPEB liability (asset)	<u>\$ (2,054,603)</u>
 Plan fiduciary net position as a percentage of the total OPEB liability (asset)	 <u>122.80%</u>

The total OPEB liability (asset) in the June 30, 2020 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2020
Measurement date	June 30, 2021
Fiscal year	July 1st to June 30th
Actuarial cost methods	Entry age normal cost method
Inflation rate	2.50%
Investment rate of return	5.75%
Salary Increase	2.75%
Healthcare cost trend rate	4.00%

The discount rate was based on the Bond Buyer 20-bond General Obligation Index.

**NOTE 13 – POSTEMPLOYMENT BENEFITS, continued**

Mortality rates were based on the 2020 CalSTRS Mortality Table for certificated employees and the 2017 CalPERS Active Mortality for Miscellaneous and School Employees Table for classified employees. Mortality rates vary by age and sex. (Unisex mortality rates are not often used as individual OPEB benefits do not depend on the mortality table used.) If employees die prior to retirement, past contributions are available to fund benefits for employees who live to retirement. After retirement, death results in benefit termination or reduction. Although higher mortality rates reduce service costs, the mortality assumption is not likely to vary from employer to employer.

The actual assumptions used in the June 30, 2020, valuation were based on the results of an actual experience study for the period July 1, 2020 to June 30, 2021.

**NOTE 14 – RISK MANAGEMENT**

**Property and Liability Insurance Coverages**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year ending June 30, 2022, the District contracted with the Bay Area Community College Districts (BACCD), the Statewide Association of Community Colleges (SWACC), and the Self-Insured Schools of California (SISC III) Joint Powers Authorities (JPAs) for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. These have not been a significant reduction in coverage from the prior year.

**Joint Powers Authority Risk Pools**

During fiscal year ended June 30, 2022, the District contracted with the BACCD Joint Powers Authority for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

**Workers' Compensation**

For fiscal year 2021-2022, the District participated in the Santa Barbara County Schools Self-Insurance Program for Employees (SIPE) Joint Powers Authority (JPA), an insurance purchasing pool. The District is self-insured for the first \$10,000 of each workers' compensation claim. The intent of the JPA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the JPA. The workers' compensation experience of the participating districts is calculated as one experience, and a common premium rate is applied to all districts in the JPA. Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall saving. A participant will then either receive money from or be required to contribute to the "equity pooling fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the JPA. Participation in the JPA is limited to K-12 and community college districts that can meet the JPA's selection criteria.

Insurance Program / Company Name	Type of Coverage	Limits
Santa Barbara County School SIPE	Workers' Compensation	\$1,000,000
U.S. Specialty Underwriters	Excess Workers' Compensation	\$25,000,000
BACCD JPA	Property and Liability	\$1,000,000 - \$250,000,000

**NOTE 15 – EMPLOYEE RETIREMENT SYSTEMS**

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of CalSTRS and classified employees are members of CalPERS.

For the fiscal year ended June 30, 2022, the District reported the net pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense
CalSTRS	\$ 15,829,773	\$ 6,131,579	\$ 16,151,716	\$ (869,085)
CalPERS	26,555,151	7,693,253	10,271,428	4,239,698
Total	\$ 42,384,924	\$ 13,824,832	\$ 26,423,144	\$ 3,370,613

**California State Teachers' Retirement System (CalSTRS)**

**Plan Description**

The District contributes to the State Teachers' Retirement Plan (STRP) administered by CalSTRS. STRP is a cost sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2020, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

**Benefits Provided**

The STRP provides retirement, disability, and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State is the sponsor of the STRP and obligor of the trust. In addition, the State is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2022, are summarized as follows:

	STRP Defined Benefit Plan	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 60	2% at 62

Benefit payments	Monthly for life	Monthly for life
Retirement age	60	62
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%
Required employee contribution rate	10.25%	10.205%
Required employer contribution rate	16.92%	16.92%
Required state contribution rate	10.828%	10.828%

\*The rate imposed on CalSTRS 2% at 62 members assuming no change in the normal cost of benefits.

**Contributions**

Required member, District, and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven year period. The contribution rates for each plan for the year ended June 30, 2022, are presented above, and the District's total contributions were \$3,690,435.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 15,829,773
State's proportionate share of the net pension liability associated with the District	7,965,093
Total	\$ 54,199,771

The net pension liability was measured as of June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts and the State, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2021 and June 30, 2020, was 0.0348 percent and 0.0369 percent, respectively, resulting in a net decrease in the proportionate share of 0.0021 percent.

For the year ended June 30, 2022, the District recognized pension expense of (\$869,085). In addition, the District recognized pension expense and revenue of (\$1,388,308) for support provided by the State. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual earnings on plan investments	\$ -	\$ 12,522,661
Differences between expected and actual experience	39,654	1,684,967

**Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2020
Measurement date	June 30, 2021
Experience study	July 1, 2015, through June 30, 2018
Actuarial cost method	Entry Age Normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

**NOTE 15 – EMPLOYEE RETIREMENT SYSTEMS, continued**

**California State Teachers' Retirement System (CalSTRS), continued**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2022, are summarized in the following table:

<b>Asset Class</b>	<b>Assumed Asset Allocation</b>	<b>Long-term Expected Real Rate of Return*</b>
Public Equity	42%	4.80%
Real Estate	15%	3.60%
Private Equity	13%	6.30%
Fixed Income	12%	1.30%
Risk Mitigating Strategies	10%	1.80%
Inflation Sensitive	6%	3.30%
Cash/Liquidity	2%	-0.40%
	<u>100%</u>	

\*20-year geometric average

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
Plan's net pension liability	\$ 32,223,752	\$ 15,829,773	\$ 2,223,083

**Plan Description**

Qualified employees are eligible to participate in the School Employer Pool (SEP) under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2020, annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or age 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2022, are summarized as follows:

**Contributions**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2022, are presented above, and the total District contributions were \$4,418,039.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

As of June 30, 2022, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$26,555,151. The net pension liability was measured as of June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2021 and June 30, 2020, was 0.1306 percent and 0.1213 percent, respectively, resulting in a net increase in the proportionate share of 0.0093 percent.

For the year ended June 30, 2022, the District recognized pension expense of \$4,239,698. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual earnings on plan investments	\$ -	\$ 10,191,077
Differences between expected and actual experience	792,740	62,601

**Actuarial Methods and Assumptions**

Total pension liability for the SEP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following methods and assumptions, applied to all prior periods included in the measurement:

JUNE 30, 2022**

**NOTE 15 – EMPLOYEE RETIREMENT SYSTEMS, continued**

**California Public Employees’ Retirement System (CalPERS), continued**

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds’ asset classes, expected compound returns were calculated over the short-term (first ten years) and the longterm (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class*</b>	<b>Assumed Asset Allocation</b>	<b>Real Return Years 1 - 10**</b>	<b>Real Return Years 11+***</b>
Global Equity	50%	4.80%	5.98%
Fixed Income	28%	1.00%	2.62%
Inflation Assets	0%	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Assets	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
	100%		

\*In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

\*\*An expected inflation of 2.0% used for this period

\*\*\*An expected inflation of 2.92% used for this period

**Discount Rate**

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)

**On Behalf Payments**

The State of California makes contributions to CalSTRS and CalPERS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS for the fiscal year ended June 30, 2022, which amounted to \$2,357,942. No contributions were made for CalPERS for the year ended June 30, 2022. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. These amounts have been reflected in the basic financial statements as a component of operating revenue and employee benefit expense.

**Deferred Compensation**

The District offers its employees a CalPERS administered 457 Deferred Compensation Program (the Program). The Program, available to all permanent employees, permits them to defer a portion of pre-tax salary into investment of an individual's own choosing until future years. The deferred compensation is not available to the employees or their beneficiaries until termination, retirement, death, or an unforeseeable emergency. The CalPERS Board controls the investment and administrative functions of the CalPERS 457 Deferred Compensation Program. The Board for the exclusive benefit of participating employees, which adds security, holds the assets in trust.

**NOTE 16 – PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWERS AUTHORITIES**

The District is a member of the BACCD JPA, SWACC, SISC III, and Santa Barbara County Schools SIPE. The District pays annual premiums for its property liability, health, and workers' compensation coverage. The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, transactions between the JPAs and the District are included in these statements. Audited financial statements are available from the respective entities.

The District has appointed one Board member and one alternative to the Governing Board of BACCD and Santa Barbara County SIPE.

The District's share of year-end assets, liabilities, or fund equity has not been calculated.

During the year ended June 30, 2022, the District made payments of \$416,370, \$6,034,904, and \$363,636 to BACCD, SISC III, and SIPE, respectively.

**Grants**

The District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2022.

**Litigation**

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2022.

**Construction Commitments**

As of June 30, 2022, the District had the following commitments with respect to the unfinished capital projects:

**ALLAN HANCOCK JOINT COMMUNITY COLLEGE DISTRICT  
DISTRICT ORGANIZATION  
JUNE 30, 2022**

---

Allan Hancock Joint Community College District was founded in 1920 when the Santa Maria High School District established Santa Maria Junior College, and is comprised of an area of approximately 3,000 square miles located in Santa Barbara County. There were no changes in the boundaries of the District during the current year. The District's college is accredited by the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, which is one of six regional associations that accredit public and private schools, colleges, and universities in the United States.

In September 1954, the community voted to establish the Santa Maria Joint Junior College District. In 1963, the Lompoc Unified School District and Santa Ynez Union High School District were annexed to the community college district, and the District was renamed the Allan Hancock Joint Community College District.

Today, the District includes all of northern Santa Barbara County and small parts of San Luis Obispo and Ventura counties, including the cities of Santa Maria, Lompoc, Cuyama, Guadalupe, Solvang, and Buellton and Vandenberg Space Force Base.

**NOTE 1 - PURPOSE OF SCHEDULES**

**District Organization**

This schedule provides information about the District's governing board members and administration members, as of June 30, 2022.

**Schedule of Expenditures of Federal Awards**

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (Part 200), Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

**Schedule of Expenditures of State Awards**

The accompanying Schedule of Expenditures of State Awards includes the State grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The information in this schedule is presented to comply with reporting requirements of the California State Chancellor's Office.

**Schedule of Workload Measures for State General Apportionment**

FTES is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds, including restricted categorical funding, are made to community college districts. This schedule provides information regarding the annual attendance measurements of students throughout the District.

**Reconciliation of Education Code Section 84362 (50 Percent Law) Calculation**

ECS 84362 requires the District to expend a minimum of 50 percent of the unrestricted General Fund monies on salaries of classroom instructors. This is reported annually to the State Chancellor's Office. This schedule provides a reconciliation of the amount reported to the State Chancellor's Office and the impact of any audit adjustments and/or corrections noted during the audit.

**Proposition 30 Education Protection Account (EPA) Expenditure Report**

This schedule provides the District's summary of receipts and uses of the monies received through the EPA.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees  
Allan Hancock Joint Community College District  
Santa Maria, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate remaining fund information of Allan Hancock Joint Community College District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 21, 2022.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Trustees  
Allan Hancock Joint Community College District  
Santa Maria, California

**Report on Compliance for Each Major Federal Program**

**Opinion on Each Major Federal Program**

We have audited Allan Hancock Joint Community College District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major Federal programs for the year ended June 30, 2022. The District's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2022.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Allan Hancock Joint Community College District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Allan Hancock Joint Community College District's compliance with the compliance requirements referred to above.

**Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Allan Hancock Joint Community College District's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Allan Hancock Joint Community College District's compliance based on our audit.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate it would influence the judgment made by a reasonable user of the report on compliance about Allan Hancock Joint Community College District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Allan Hancock Joint Community College District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Allan Hancock Joint Community College District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Allan Hancock Joint Community College District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Board of Trustees  
Allan Hancock Joint Community College District  
Santa Maria, California

### **Report on State Compliance**

#### **Opinion on State Compliance**

We have audited Allan Hancock Joint Community College District's (the District) compliance with the types of compliance requirements as identified in the *California Community Colleges Contracted District Audit Manual 2021-22*, published by the California Community Colleges Chancellor's Office, for the year ended June 30, 2022. The applicable state compliance requirements are identified in the table below.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the programs noted below that were audited for the year ended June 30, 2022.

#### **Basis for Opinion**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2021-22*, issued by the California Community Colleges Chancellor's Office. Our responsibilities under those standards and the compliance requirements are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Allan Hancock Joint Community College District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for program. Our audit does not provide a legal determination of Allan Hancock Joint Community College District's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements of State laws and regulations, and the terms and conditions identified in the California Community Colleges Chancellor's Office *District Audit Manual 2021-22*.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our responsibility is to express an opinion on compliance of each of the District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the standards and procedures identified in the *California Community Colleges Chancellor's Office Contracted District Audit Manual 2021-22*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above could have a material effect on the applicable programs noted below. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

### **Procedures Performed**

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with State laws and regulations applicable to the following:

Section 411 – SCFF Data Management Control Environment  
Section 412 – SCFF Supplemental Allocation Metrics  
Section 413 – SCFF Success Allocation Metrics  
Section 421 – Salaries of Classroom Instructors (50 Percent Law)  
Section 423 – Apportionment for Activities Funded From Other Sources  
Section 424 – Student Centered Funding Formula Base Allocation: FTES  
Section 425 – Residency Determination for Credit Courses  
Section 426 – Students Actively Enrolled  
Section 427 – Dual Enrollment (CCAP)  
Section 430 – Scheduled Maintenance Program  
Section 431 – Gann Limit Calculation  
Section 444 – Apprenticeship Related and Supplemental Instruction (RSI) Funds  
Section 475 – Disabled Student Programs and Services (DSPS)  
Section 490 – Propositions 1D and 51 State Bond Funded Projects  
Section 491 – Education Protection Account Funds  
Section 492 – Student Representation Fee  
Section 499 – COVID-19 Response Block Grant Expenditures

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing over state laws and regulations based on the requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2021-22*. Accordingly, this report is not suitable for any other purpose.
