

Report Preparation

325.1 PURPOSE AND SCOPE

Report preparation is a major part of each officer's job. The purpose of reports is to document sufficient information to refresh the officer's memory and to provide sufficient information for follow-up investigation and successful prosecution. Report writing is the subject of substantial formalized training and on-the-job training.

325.1.1 REPORT PREPARATION

Employees should ensure that reports are sufficiently detailed for their purpose and free from errors prior to submission. It is the responsibility of the assigned employee to complete and submit all reports taken during the shift before going off-duty unless permission to hold the report has been approved by a supervisor. Generally, reports requiring prompt follow-up action on active leads, or arrest reports where the suspect remains in custody should not be held.

Handwritten reports must be prepared legibly. If the report is not legible, the submitting employee will be required by the reviewing supervisor to promptly make corrections and resubmit the report. Employees who dictate reports shall use appropriate grammar, as content is not the responsibility of the typist. Employees who generate reports on computers are subject to all requirements of this policy.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. Generally, the reporting employee's opinions should not be included in reports unless specifically identified as such.

- Employees may only use their electronic signature for official reports or other official communications.
- Each employee shall be responsible for the security and use of his/her electronic signature and shall promptly notify a supervisor if the electronic signature has or may have been compromised or misused.

325.7 USE OF ARTIFICIAL INTELLIGENCE IN PREPARATION OF REPORTS

Official reports that are generated using artificial intelligence (AI) either fully or partially shall contain the following (Penal Code § 13663)

- a. On each page of an official report, or within the body of the text, identify every specific AI program used in a manner that makes such identification readily apparent to the reader and prominently state the following: "This report was written either fully or in part using artificial intelligence."
- b. The signature of the member who is preparing the official report, either in physical or electronic form, verifying that they reviewed the contents of the report and that the facts contained in the official report are true and correct. Except for the official report, a draft of any report created with the use of AI shall not constitute a member's statement.

For purposes of this section artificial intelligence means an engineered or machine-based system that varies in its level of autonomy and that can, for explicit or implicit objectives, infer from the input it receives how to generate outputs that can influence physical or virtual environments. AI as used in this section applies to AI systems that automatically draft police report narratives based upon an analysis of in-car or dash-mounted cameras, or body-worn camera audio or video, and AI systems that analyze a law enforcement officer's dictated report to generate a police report narrative automatically enhanced by generative AI (Penal Code § 13663).

See the Generative Artificial Intelligence Use policy for additional guidance on generative AI.

325.7.1 ARTIFICIAL INTELLIGENCE AUDIT TRAIL

The Department shall maintain an audit trail for AI generated first drafts or official reports for as long as the official report is retained that, at a minimum, identifies both of the following (Penal Code § 13663):

Report Preparation

- b. The video and audio footage that is used to create a report, if any.
